

# DEVILS CLAW CHAIN STOPPER

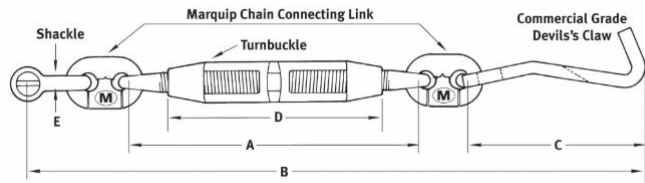

## TECHNICAL DATA SHEET

The Devils Claw Chain Stopper is a mechanical stopper positioned between the bow roller and windlass to hold the anchor chain securely under load, alleviating stress on the windlass when at anchor or underway.

It features robust paddles (often 316 stainless or 17 4PH steel) and is sized to exceed 125% of chain breaking strength. Available for chains from 14 mm to 22 mm and both horizontal and vertical configurations. Ocean Force is a leading Australian supplier of Devil's Claw Chain Stopper.

### Applications

- **Load Relief:** Takes anchor load off windlass, compliant with class society load requirements
- **Heavy-duty Construction:** 316 Stainless and 17-4PH steels for durability
- **Sizes:** 14–22 mm studlink chain coverage.
- **Configs:** Horizontal and vertical options depending on installation
- **Safety Tested:** Rated ≥125% of chain's breaking load
- **Local Stock:** Available with installation and tagging support

### Specifications

Product Code	Nominal Size (mm)	Dimensions (mm)							Proof Load (kg)
		A	B Min	B Max	C	D	E	Det Link	
SLDC19G	19	16.0	44.5	60.3	12.0	11.0	22.2	19.1	15,422
SLDC22G	22	27.2	96.8	114.9	12.0	11.0	25.4	22.2	20,865
SLDC25G	25-32	48.3	104.8	132.4	31.0	13.0	31.8	34.9	41,821
