

EMBARKATION LADDERS

TECHNICAL DATA SHEET

Genuine PTR Holland® embarkation ladders built to ISO 5489 and MED approved standards, suitable for the marine and offshore industry.

PTR Holland® embarkation ladders are robust, SOLAS-compliant ladders tailored for crew and passenger access during emergencies. They feature durable side ropes, sturdy wooden or rubber steps, and corrosion-resistant fittings, engineered for reliability at sea. Designed for easy deployment and safe use, PTR's ladders are built with rigorous quality standards and field-tested for marine durability in harsh environments. Ocean Force is an exclusive Northern Australian supplier of PTR Holland® Embarkation Ladders.

Specifications

Product Code	Ladder Length (m)
LADEMB4.0	4
LADEMB6.0	6
